

CPD SEMINAR

Designing & Detailing of Bound & Unbound Slab, Flag & Porcelain Paving

This 45 minute presentation provides an understanding of what is bound and unbound installation and explains the benefits of each along details on the installation standards. It will also provide details on the exception to the rule and information on design & installation detailing.

Key Learning Objectives:

- Provide an understanding of what constitutes bound paving and unbound paving
- An overview on where each application should be used
- A review of the material to be used in each construction.
- An awareness of the guidance and standards for each installation method
- An overview of the pros and cons of both bound & unbound installation

The RIBA Core Curriculum topic areas covered:

- Architecture for social purpose
- Legal, regulatory & statutory compliance
- Health, safety & wellbeing
- Design, construction & technology

What can we do for you

Brett Landscaping are one of the UK's leading manufacturers of high quality paving products, with an offer that includes concrete block paving, concrete garden paving, permeable paving and specialist kerb systems, as well as ethically sourced natural stone and porcelain. All of our products are supported by a comprehensive technical and design service which has the flexibility to accommodate commercial, public sector and domestic projects.

We work hard to share our expert knowledge about paving with architects, engineers and designers helping you to achieve the best looking, most durable and cost effective paving solutions for your projects.
