

CPD SEMINAR Hard Landscaping in Urban Design

This 45 minute presentation provides an overview of the issues involved in the successful specification of paving materials.

Key Learning Objectives:

- An outline of the 8 principles of modern design set out by Ministry of Housing, Communities & Local Government
- Defines how hard landscaping can contribute to achieving these principles
- Gain and understanding of the fundamentals application and detailing
- Develop an awareness of the importance of good specification
- Details on a number of case studies and reference source of information for future projects
- An overview and introduction to Brett Landscaping & Building Products and our services

The RIBA Core Curriculum topic areas covered:

- Architecture for social purpose
- Health, safety & wellbeing
- Legal, regulatory & statutory compliance
- Inclusive environments
- Places, planning & communities
- Building conservation & heritage

What can we do for you

Brett Landscaping are one of the UK's leading manufacturers of high quality paving products, with an offer that includes concrete block paving, concrete garden paving, permeable paving and specialist kerb systems, as well as ethically sourced natural stone and porcelain. All of our products are supported by a comprehensive technical and design service which has the flexibility to accommodate commercial, public sector and domestic projects.

We work hard to share our expert knowledge about paving with architects, engineers and designers helping you to achieve the best looking, most durable and cost effective paving solutions for your projects.
